Geoderma 66 (1995) 331–332

GEODERMA

Contents Volume 66, 1995

Accumulation patterns of heavy metals in soil profiles as affected by forest clear-cutting
B.O. Berthelsen and E. Steinnes 1
A mass balance analysis of podzolization: Examples from the northeastern United States
J. Jersak, R. Amundson and G. Brimhall Jr. 15
Fibrous clay minerals in the soils of Namaqualand, South Africa: characteristics and formation
A. Singer, W. Kirsten and C. Bühmann 43
Micromorphological and mineralogical components of surface sealing in loess soils from different geographic regions
A.R. Mermut, S.H. Luk, M.J.M. Römkens and J.W.A. Poesen 71
Soil acidification: comparison of acid deposition from the atmosphere with inputs from the litter/soil organic layer
C. Gower, D.L. Rowell, S. Nortcliff and A. Wild 85
The consideration of soil boron adsorption and soil solution boron concentration as affected by moisture content
P.V. Perkins 99
Effect of *Cassia siamea* hedgerow barriers on soil physical properties
P. Kiepe 113
Transformation and distribution of forms of zinc in acid, neutral and calcareous soils of China
H.F. Xiang, H.A. Tang and Q.H. Ying 121
Characterization of the weathering status of feldspar minerals in sandy soils of Minnesota using SEM and EDX
R. Bouabid, E.A. Nater b and P.R. Bloom 137

Book Reviews 151

Erratum 165

Podzolisation mechanisms and the synthesis of imogolite in northern Scandinavia
J.P. Gustafsson, P. Bhattacharya, D.C. Bain, A.R. Fraser and W.J. McHardy 167
Cambisols and related soils in north-central Portugal: their genesis and classification
V. Pereira and E.A. FitzPatrick 185
Characterization of jarosite–natrojarosite in two northern Scandinavian soils
I. Öborn and D. Berggren 213
Comparison of class and continuous pedotransfer functions to generate soil hydraulic characteristics
J.H.M. Wösten, P.A. Finke and M.J.W. Jansen 227
A mineralogical characterization of vertisols from the northern regions of the Republic of South Africa
C. Bühmann and J.L. Schoeman 239
Nest structure of ant *Lasius neoniger* Emery and its implications to soil modification
D. Wang, K. McSweeney, B. Lowery and J.M. Norman 259
Adsorption mechanisms of s-triazine and bipyridylium herbicides on humic acids from hop field soils
N. Senesi, V. D'Orazio and T.M. Miano 273

Geostatistical assessment of the regional distribution of phosphate sorption capacity parameters (Fe_{ox} and Al_{ox}) in northern Belgium
R. Lookman, N. Vandeweert, R. Merckx and K. Vlassak 285
Application of computer captured knowledge in land evaluation, using ALES in central Ethiopia
T. Yizengaw and W. Verheye 297
Isotopic evidence for the eolian origin of quartz and mica in soils developed on volcanic materials in the Canary Archipelago
C. Mizota and Y. Matsuhisa 313
Nitrogen and phosphorus leaching from the forest floor of a mature *Pinus radiata* stand
J. Cortina, J. Romanyà and V.R. Vallejo 321
